

Another Kappler innovation – our combo-sizing system reduces inventory and simplifies your selection process.

Our garments are designed and constructed with the wearer in mind, and that includes sizing that simplifies the decision process. Typically worn over other clothing, Kappler’s garments are designed so that “combination sizes” comfortably fit the vast majority of users. Plus, with only five size options (versus the normal eight), you simplify ordering logistics and reduce inventory requirements. The vast majority of Kappler styles use combo-sizing, with a limited range of garments based on specific sizing (see second chart at bottom).

Use the combo-sizing chart for the following styles:

- All Zytron styles (except Z5HTN C2)
- All Frontline Styles
- Provent Styles MNH36, MNH38, P7S210, P7S211 and P7S212

Use the specific-sizing chart for the following styles:

- All Provent Styles (except MNH36, MNH38, P7S210, P7S211 and P7S212)
- Zytron Z5HTN C2

WARNING: This information is based on technical data that Kappler believes to be reliable. It is subject to revision as additional knowledge and experience are gained. The website will contain Kappler’s most up-to-date product information, and customers who receive pamphlets, brochures or other literature should be aware that such “hard copy” information may not be as current as the information on Kappler’s website. Customers also should recognize that there are uses, environments and chemicals for which Kappler products, garments and/or fabrics are unsuitable. It is the responsibility of the user to review available data and verify that the product, garment and/or fabric is appropriate for the intended use and meets all specified government and/or industry standards. Also, the customer should review all available information on the website to understand the uses – and limitations – on ALL products, garments and fabrics which Kappler makes available. **CAUTION:** Do not use for fire protection. Avoid open flame or intense heat.
